i2® Analyst's Notebook® Training

Accelerate your analytic capabilities.

Learn from practitioners with real world experience in operational environments to help you to maximize the value of your i2® Analyst's Notebook® deployment.

i2® Analyst's Notebook® Training Options

- Free "Tips and Tricks" Webinars

- Training Courses for individuals and teams at various levels from beginner to advanced

Whether you are a new or advanced user, upgrading, or just want to refresh your skills, we have a course to meet your needs.
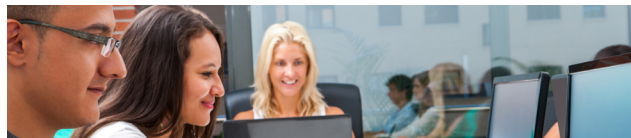

Tips and Tricks Webinars

These sessions are held approximately monthly and cover basic and intermediate features of i2® Analyst's Notebook®. They are free, mixed group sessions, and conducted over a web conferencing session.

You will need:

- A local copy of i2® Analyst's Notebook® (v9+).

- A computer with an internet connection for the webinar stream.

Register and see the webinar schedule at
https://i2group.com/anb-tips-n-tricks

Training Courses

Our training courses provide students with a detailed understanding of i2 Analyst's Notebook's powerful, investigative analysis tools to uncover hidden connections and patterns in data.

The sessions are interactive, instructor-led courses, which use a combination of lectures and hands-on exercises to maximize your learning.

Beginner, Intermediate, or Advanced

From beginner, to intermediate and advanced we have a course suitable to refresh or advance your skills. Whichever you choose, we will provide you with the software you'll need.

For Individuals or Teams

You can either join as an individual on one of our scheduled Group Courses, or book a course for your team. The advantage of a team course is that it is private to your organization and allows more open discussions where specific use cases can be explored.

The teams courses can also be held at your premises, and we can even run custom training if you have particular requirements.

All training courses are limited to a maximum of 12 students. This is to ensure we maintain sufficient instructor time per student to deliver high quality training to advance your skills.

i2 Analyst's Notebook Training Comparison

	Tips and Tricks Webinar	Basic Course	Intermediate Course	Advanced Course
Basic User	■	■		
Intermediate User	■		■	
Advanced User				■
